He walked past many people who were potentially at risk of being attacked and the police let him walk past them, imagine if he had taken a hostage, fuckin stupidity,

You risk your own civilization by bringing in migrants, why would you do that?
They offer ZERO enhancement to your Country.

Actually, another way to make sure is to not let them in to begin with.

It seems they always push the envelope because they don't believe Police will do anything to protect themselves and innocent citizens. They are sadly mistaken. After many long years of abusing the system by committing crimes often violent crimes Police have had enough.

The only monkey living with we polite and good manners white and Asians is a dead monkey. Then no more violence out of him or her to attack us. It's a sad but necessary rule we polite good people must live with.

The things the Islamist CULT will do for 72 virgins. Has anyone observed if the virgins have had their virginity checked or are you going to believe mohamad or allah. Where do all these virgins come from since so many children are married off by the time they are nine or younger. Or are the 72 the ugliest rejects that mohamad or allah could find?

Obviously, the "knifeman" is more self-confident than those "brave" policemen, who are continuously nervous when begging him to surrender! Ridiculous picture!
