Cea Weaver is NYC Mayor Mamdani's advocate for tenants. She says private homeownership is "white supremacy," and "the people" should "seize private property," especially from whites.

This was her face when a reporter asked if that included her mother's \$1.4 million mansion.

Cea also says, "This country built wealth for white people through genocide, slavery, stolen land and labor. White supremacy built the north and the South."

America must "impoverish the white middle class" and elect no more white men. Mamdani says he stands by her. dailymail.co.uk/news/article...

Her mother's home needs to be taken ASAP.
That is the way to stop these scumbags, make them feel their policies in a very personal way.
