I'm sure this is exactly what MAGA voted for...

"America First" 😞

They do not serve America and don't even fight for America, there is absolutely zero reason they should get the same benefits as American troops in our country.

It's crazy that I even have to type this.

Maybe this was why Bondi made an example of the Florida student wearing the "IDF" shirt that was supposedly "bullied." She bragged about using the full weight of her office going after the supposed "bully."

AND they already get free benefits. They have their own hospitals and banks where they patients are treated for free and the banks give out 0 interest loans. So why give them even more? My husband had to go on disability so both me and my special needs son will be without insurance in the next couple of months. Stunning

We are continuing to allow a hostile takeover of our country—from the inside out, no less.

I'm honestly starting to believe that both Dems and Reps have been working together and the open-border policy was a ploy to distract us from the real takeover happening from within.

She's referring to H.R. 8445, introduced in the House in May 2024 by Reps. Guy Reschenthaler (R-PA) and Max Miller (R-OH). [OBJ] [OBJ] The bill aimed to extend specific protections under the Servicemembers Civil Relief Act (SCRA) and Uniformed Services Employment and Reemployment Rights Act (USERRA) to American citizens (including dual U.S.-Israeli citizens) serving in the IDF things like safeguards against foreclosures, higher interest rates, or job loss during service, treating it similarly to U.S. military duty for those purposes. [OBJ] [OBJ]

It was targeted at an estimated 20,000 Americans in the IDF at the time. [OBJ]

However, the bill never passed it was referred to a Veterans' Affairs subcommittee in July 2024 and saw no further action. [OBJ] [OBJ]

With the end of the 118th Congress on January 3, 2025, it expired and would need to be reintroduced in the current 119th Congress (2025-2027) to move forward.

There's no public record or news of it being reintroduced as of now. [OBJ] Social media claims in late 2024 falsely tied it to a government spending bill, but that wasn't true.
