This is disgusting & [@tedcruz](#) is abandoning his duty to the first amendment and this country.

The ADL is a plague on free speech.

I don't watch Tucker as much as I used to. If I'm interested in the guest, I watch it if I'm not, I skip it. This is what normal people do.

Whether the ADL likes it or not, Qatar is part of the world and someone needs to interact with them on a regular basis. Maybe they should be thanking Tucker for taking on the pain of dealing with both Qatar's politics and

constantly being flamed by the ADL and others for talking.

This is what "republicans" do when they are in power. Infighting. When the communists take back power they will go scorched earth.

A decentralized, leaderless movement composed of loose collections of groups, networks and individuals who are vigorously opposed to fascism, and focused on countering right-wing extremists both online and on the ground. While some antifa adherents have engaged in violence or vandalism at rallies and events, this is not the norm, despite disinformation campaigns that suggest otherwise.
