A private plane with tail number N888KG left Utah after the shooting. landed in Wendover, never filed, no transponder from there on. Desert airstrip, cameras off

Liftoff at about 3:20, 45 minutes after Charlie was shot. That's too tidy. Especially since the ADS-B blinked out west of Salt Lake, then popped back in near Wendover... like a ghost resetting. No manifest, no crew listed, just that Lehi LLC shell company. Smells like an extraction

Trump likely arranged the whole thing. He's known for making people disappear with falls or supposed suicide. Assassination gave Trump a way to blame the "LEFT" as well.

Charlie Kirk was demanding the Epstein files released:

Charlie Kirk talks Epstein, urges Trump administration to act

Kirk devoted Tuesday's podcast to extensive interviews about Epstein — a day after he and several other MAGA figures suggested they would take President Trump's advice and move on.

It's very odd timing. It's basically 9/11. Trumps bday book comes out. And more on the way and Charlie was openly turning on Israel . He realized they had lied to him

Lehi is or was the name of a Jewish terrorist group before Israel became an entity.
