[Donald Trump faces MAGA backlash over vow to admit 600K Chinese students](#)

What a tone deaf dipshit.

Lets make it even harder on young Americans.

This will drive up rents / housing costs , while being a BAILOUT for bloated Ivy League colleges.

“We should not let in 600,000 CHINESE students to attend American colleges and universities that may be loyal to the CCP,” Rep. [Marjorie Taylor Greene](#) (R-Ga.) posted on [the social platform X](#).

“Why are we allowing 600,000 students from China to replace our American student’s opportunities?” Greene added. “We should never allow that. And we need more trade school graduates.”

We've already got more than 500,000 chinese 'students' at our universities ... every one of them taking the place of a US Citizen and Taxpayer who would have appreciated the opportunity to go there ... so just why in hell do we need to kiss china's ass this way?

Has china suddenly become israel?

Not a one of them taking the place of a US citizen. They pay full fees – hence why they are wanted by colleges. They actually fund a lot of places for US citizens. That is especially true at state schools.

A given university offers a given number of seats in a given year. Harvard enrolls about 1700 kids. If one of those seats is given to a Chinaman, an American kid has to go somewhere else.

Total enrollment (including foreign students) nationwide is about 20 million which means about 5 million per year admitted as freshmen in a 4 year college. And you want a nation that you abandoned to give one in eight seats just to kids from a country we're repeatedly told is our enemy.

There's one of three outcomes from this

1. the China student gets American brainwashing and then takes a good paying job from a qualified heritage American.
2. The China student gets American brainwashing and returns to China where he's jailed as a spy.
3. The China student IS a spy.

Fuck you.

Keep your retardation down under and import a half million Chinees to the University of Melbourne or Monash or something.

This is why they include invaders in the census so they can hide the number of Americans being murdered with vaccines and sterilized by vaccines. White Americans should sacrifice the material life of greed to afford to have large families and mothers who stay home to raise the children. Child care is unaffordable now and women are sorely needed at home for the restoration of our numbers.

Yes they can. If you took the majority of women out of jobs, they would have to hire men and pay them more because of a deficit of workers to fill the jobs. Or they could send in more street shitters and piss us off even more. This has to stop bruh or we will no longer exist. YT needs to circle the wagons NOW.

FYI, 46% of all management jobs and 56% of all workers in professional jobs are women. Women make up 47% of the American workforce. I assure you men could get all kinds of positions without women in the workplace.

The importation of foreigners is about payroll taxes propping up the SocSec/Medicare Ponzi while lowering the standard of living of heritage Americans.

The first part of that equation doesn't actually work, and in fact they are a net fiscal drain. That hasn't stopped either party from doubling and tripling down on that theory. The second part (lowering living standards) works wonderfully.
